"LIBERTY AND UNION—NOW AND FOREVER—ONE AND INSEPARABLE."—Webster.

VOL. 3. QUINCY, PLUMAS COUNTY, CALIFORNIA, SATURDAY, NOVEMBER 5, 1864. NO. 2.

THE CHICAGO SURRENDER.

BY BAYARD TAYLOR.

WHAT! hoist the white flag when our triumph is nigh?
What! crouch before treason! make Freedom a lie?
What! spike all our guns when the foe is at bay,
And the rags of his black banner dropping away?
Tear down the strong name that our nation has won,
And strike her brave bird from his home in the sun?

He's a coward who shrinks from the lift of the sword;
He's a traitor who mocks at the sacrifice poured;
Nameless and homeless the doom that should blast
The knave who stands idly till peril is past;
But he who submits when the thunders have burst,
And victory dawns, is of cowards the worst!

Is the old spirit dead? Are we broken and weak,
That cravens so shamelessly lift the white cheek
To court the swift insult, nor blush at the blow,
The tools of the Treason and friends of the foe?
See! Anarchy smiles at the Peace which they ask,
And the eyes of disunion flash out through the mask!

Give thanks ye brave boys, who by vale and by crag
Bear onward, unfaltering, the noble old flag,
Strong arms of the Union, heroes living and dead,
For the blood of your valor is uselessly shed!
No soldier's green laurel is promised you here,
But the white rag of "SYMPATHY" softly shall cheer!

And you, ye war martyrs, who preach from your graves
How captives are nursed by the masters of slaves,
Or, living still linger in shadows of Death,
Puff out the starved muscle, recall the faint breath,
And shout, till those cowards rejoice at the cry:
"By the hands of the Union we fought for we die!"

By the God of our fathers! this shame we must share,
But it grows too debasing for freemen to bear,
And Washington, Jackson, will turn in their graves
When the Union shall rest on two races of slaves;
Or, spurning the spirit which bound it of yore,
And sundered, exists as a nation no more!

FLOW GENTLY, SALT RIVER.

AIR—"Flow Gently, Sweet Afton."

Flow gently, Salt River, between thy mud banks;
Flow gently, I'll sing thee a song full of thanks;
Little Mac will soon sail up thy dark muddy stream:
Flow gently, I charge thee, disturb not his dream!

The ship that he sails in is Coleman's new line,
'Tis loaded with brooms and a barrel of lime
To cleanse Little Mac from political sin—
If thou wouldst keep peace, don't let him fall in!

The nation great honors conferred on this man,
Of our great noble Army he was placed in command;
But the soldiers soon found he was digging their graves,
For he sent them to hunting Jeff's runaway slaves.

In the rear of his army he always was found,
Except when retreating, and then he was bound
To be the first man our brave arms to disgrace,
By running to find a safe hiding place!

If he should fall into thy turbulent stream,
No more would thy waters be fit to be seen.
His body though small, yet his sins would disgrace
The mud on thy banks or the scum on thy face!

His sword he laid down, at Jeff. Davis's command,
To grasp at the sceptre to rule our fair land;
But the people have said no grave-digger shall rule:
So take him! we consign him to thy filthiest pool!

"WEBFOOT" WITTICISMS.—The Oregon Statesman gets off the following spicy paragraphs:

DIED—In Salem, on yesterday, of election news, Copperhead Hope. The deceased was born in Sin, lived in Infamy, and died with a fair prospect of eternal damnation. We have no tears to shed. It is the lot of foul deformity to die early.

"Death rides on every passing breeze,
He lurks in every flower;
He pops the Cops from right to left,
To show his wondrous power."

SHOULD a person, ignorant of the facts in relation to this war, visit a Copperhead speechmaking, he would naturally conclude, from the harangues, that Abraham Lincoln had most wickedly revolted against the wise and beneficent government of Jeff. Davis. He wouldn't get the most distant idea from the speech that there is raging now a rebellion against the United States except so far as the Copperheads wage it.

THE morning, noon and evening prayer of the Copperheads is about as follows: Our father Jeff., who art great in Richmond, if you have any respect for us or any sympathy for McClellan, don't let Grant whip you till after the election. Help us, Jeff, or we sink!

TO PRINTERS.—*By our Little Joker.*—Why are the rebels in the Southwest like *rats?* Because they are trying to work their way into Missouri *under Price.* Query.—Will they be admitted into the *Union?*—[Flag.

OF COURSE.—Dr. Bowles, recently arrested in Indiana for treason, is the man who, as Colonel of an Indiana regiment, disgraced the State in the battle of Buena Vista. It is but natural that a coward should be a traitor.

LETTER FROM HONEY LAKE.

SUSANVILLE, Lassen Co., Oct. 28.

ED. UNION—"We" are at present settling down into the quiet and *sober state* consequent upon every *spirited* movement, and feel, after what little smoke has been seen has died away, and the evaporations of the malarious *fumes* and *gasses*, sole concomitants of prutrescent Democratic gatherings, qualified in a measure "to report progress," and the color of the "political horizon" in Lassen. To give you in detail all the occurrences at the recent Copperhead Barbecue in our valley, would be to treat of a train of abuses indictable under the statute law of California "to abate nuisances," "and suppress unlawful riotous assemblages against the peace," &c.

As "Democracy," McClellanism, peace through an armistice, and all particles that go to make up the amalgam of opposition to the "Lincoln Despotism" is summed up in the one word, Treason, or Toryism, so the recent grand whine of the ghouls of Honey Lake, lasting through a *series* of days and nights made hideous by their pestilential ravings against authority that deserves the severest censure for not suspending the *corpus* of each of them can be fully measured and described by the one word, "fizzle." "Heralders" and "rallyers" for weeks previous had scoured the whole length and breadth of the county, whilst a committee detailed for the purpose beset large numbers of the Union men (for their attendance) that their "show" might appear as respectable as possible in numbers, and at the same time possess some redeeming quality. The last man in their confederacy was conscripted, emigrants late from the bush-service in Missouri and Arkansas constituting fully a third, or the most respectable portion of their grand turn-out, were whipped into line, or voluntarily scenting from far sweet odors of burning beef and rot-gut, wended their way thither.—They say that "four hundred dinners were eaten,"—a fact fully demonstrable in the circumstance of nearly the whole of them eating four dinners apiece, as by actual count the grand total, men, women and children, did not exceed two hundred. We were slightly taken aback in observing their flourish of transparencies, and in contemplating the vast amount of wisdom, ingenuity and originality displayed in the conception of the appropriateness of carrying them only in mid-day. All that mechanical skill and Copperhead ingenuity could invent and construct, was conceived and brought forth for the occasion, constituting some seven or eight "transparent emblems," the mottoes of which, wrought out by the fertile brain of "the gentleman from Africa, what keeps the Drug Store, and signs his name with an M. D.," were not so transparent. As, for instance, the chiefest of all had this inscription, "Long Abe the Little Statesman, Little Mac the Big Indjin." Nothing but the far-seeing powerfully intellectual capacities and scientific computations of your exceedingly classical fellow citizen, Judge Hogan Esq., would have been able to have explained its application or the "pint" to the comprehension of Honey Lakers.

Their parade through town, numbers, and the efforts they put forth to insure its success, presented a striking contrast to the enthusiastic spirited gathering of sober intelligent determined Union men, the week previous, and should teach any calm, considerate mind that it is the inteligent, thinking, cool, calculating christian spirit, that is identified with the cause of the Union and humanity. When after so much ado and time made and expended, Secessia is outnumbered four to one by Union lovers, with comparatively no effort at all for a grand rally, as was the case on the occasion of Gen Bidwell and J. R. Buckbee's addresses on the 20th, our "friends" can read in the general result thus induced, their horoscope in the disastrous Chicahominy Peninsular campaign of their chief, McClellan. The Great Dragon seen in prophetic vision through the records of heathen mythology, coiling around the fountain of humanity's hope, is receiving his death blow at the hand of the second Ulyssus, and the ides of November, through the defeat of the traitor's candidate, will mark the period when the teeth of the monster will be extracted, and cast abroad over the land, receiving their covering in the furrows plowed by cannon balls, and causing to spring up there from a race not inferior to the ancient Titans, "that will strike terror in and forever silence all evil doers and haters of God's people."

The spirit of the age is progression, and to progress is to advance towards that highest destiny for all men and nations, in securing to all of God's creatures the right to life, liberty, and the pursuit of happiness. We cannot believe that God has forsaken the American People, and having the utmost confidence in the integrity, patriotism and love of country, shed abroad in the hearts of the whole people, we confidently look forward to a second holding of the "scepter of power" by Abraham, our more than Thebian Epaminondas.

The nation's soliloquy, assuming the form of decisive resolve is

—— its people have sworn in their
Inmost souls with a terrible oath
That only God heard—
That the Union shall stand,
And as they live they will execute it.

A. W. L.

POLITICAL PROSPECT.—The prospects of an overwhelming Union victory in the State brighten every hour. All the news received from the interior is of the most cheering character. There is a hurried flocking of Democrats to the Union lines, whence none go out. Placer county, we are assured by one of her best men, will double her majority. Some other counties may not do quite so well as this, but from the lights before us, we are certain not one of them will temper the November wind to the shorn Copperheads. Hurry up, then, ye wavering Democrats. "The roll will soon be called, and as the soldiers answer, they take sides forever."—[S. F. Call.

BURNT CHILDREN DREAD THE FIRE.—Since Manton Marble and Auguste Belmont have gone into the Telegraph business on electioneering account, the Democratic Press cautions its readers not to believe a word of news that comes by telegraph. Since the Pennsylvania election dispatches on Copperhead authority, which so fooled the Copperheads, they have a double horror of the telegraph. The Press is terribly afraid the telegraph will announce the capture of Richmond, and in advance cautions its readers not to believe it. That city never would be taken if the Copperheads could prevent it.

A WESTERN editor, whose wife was absent at the East, was deprived of his usual doughnuts. He therefore advertised that he would send his paper one year to the lady who sent him the best peck of home-made doughnuts, and would also mention her name in large type. He had two barrels full furnished and the mean fellow, not content with this speculation, announced that none of the samples came up to his home standard and advised the ladies to try again in a month.

A PLOTTING TRAITOR.—McClellan began to plot treason at the very first. While in command at Washington he caused to be circulated a list, without any heading by which all who signed it *pledged themselves to follow and fight under him only!* Entirely consistent with the character of one who is the leader of the infernal plotters of Northern revolution for Southern aid, who have been so recently unearthed in nearly every loyal State!

PROFESSOR SILLIMAN is of opinion that the Great Salt Lake basin was once filled with salt water, which, by the action of volcanic fires was kept in a boiling condition, hence the desulphurization of silver ores near the surface, and the formation of chloride of silver found so universally near the top of the ground in Nevada Territory.

ROGER B. TANEY, Chief Justice of the Supreme Court of the United States, died on October 12th, in Washington, aged 87 years. He has held the position of Chief Justice since 1836. It is said that ex-Secretary of the Treasury, Salmon P. Chase, of Ohio, will be appointed to the vacant place.

THE Copperheads are not quite so fierce to bet on the election of littulmak, as they were before they received the news of 25,000 "nails in Mc's coffin," driven by Indiana. The coffin nail fund is multiplying. Let'er multiply. We subscribe for Oregon.

ONE of the Copperhead speakers at the Theater, the other night, said "Democracy is the same everywhere—the same in South Carolina, Massachusetts, Virginia and Oregon." That is so in 1864, without question. We yield that Democratic point, gracefully.

BE VIGILANT.—The time is drawing nigh when the most important election ever held on earth, will come off. An election that will decide the destinies of millions yet unborn, and will forever fix and determine the question of human freedom on this Continent. Whether the United States of America shall continue in existence as the house of the Free and the refuge of the oppressed, or whether the Nation is to be destroyed, and the enemies of Freedom, at home and abroad triumphant, are all in the hands of the men whose votes will be given on the 8th of November. Although there is every reason to believe the cause of treason will be defeated most signally in every State, yet let every man remember that he has a duty to perform. It is the duty of every loyal man to do all he can by precept and example to swell the loyal sentiment. Let every man act as if the success of the cause depended on his individual efforts and exertions. Be vigilant, all!—Pet. Argus.

THE Richmond Enquirer estimates that 60,000 people of Virginia, which number is one sixth of the whole white population, are dependent on public charity for support. In Richmond alone there are 2,500 such, requiring an expenditure of $500,000 per annum. It admits that no such burden exists in the North, because there the poor are employed. But being incapable of perceiving that this difference springs from the diversities of industry produced by free institutions in our case, it proposes to cling to slavery, and yet in some way realize the fruits of freedom. It goes for employing its poor, by government enterprises, if possible, or by the provisions of great manufacturers. This is the last specimen of that hopeless absurdity which used to crop out in annual "Southern Commercial Conventions."

COLONEL JACQUES ON JEFF. DAVIS.—Jacques made a speech at Indianapolis, lately, wherein he gave a fuller account of his visit to Jeff Davis recently. The Gazette says:

He said that Jeff. Davis' ultimatum was independence or annihilation. Davis said he would agree to an armistice of thirty, sixty or ninety days, if he could be assured that it would result in recognizing the independence of the South; otherwise it would be of no avail, as he would not consent to it it. Jeff. Davis says "he will not consent to an armistice," unless on the basis of Southern Independence.

DISCHARGED.—The Marin County Journal, of Saturday, says Lieutenant Governor Machin has discharged all the guards of the prison who were engaged in a disturbance at Point San Quentin, when under the influence of liquor. The Governor says he has trouble enough to keep the prisoners straight, without being compelled to watch the guards—and that for the future none but sober trustworthy men would be retained in the State's employ. The Police organization of the prison is said to be very thorough and efficient at the present time.

AT the great Union Demonstration in San Francisco last week, one of the transparencies was as follows:

Representation, stage-coach stopped by highway robbers, with the inscription—"Stand and deliver.—In the name of the Confederacy we demand your bullion.—The Confederate Democracy in 1864 canvassing for McClellan and Pendleton."

NEGRO EQUALITY.—The Shasta Courier tells a funny story of an old Secesh, who was caught playing cards and drinking with some colored men. When he came out a Union man engaged the old fellow in conversation, who expressed his decided belief that the Abolition Goverment intended to raise the negroes to a level with white folks.

WHAT THE EFFECT WOULD BE.—The election of McClellan, and the Peace Platform of the Chicago Convention would be the acknowledgement of Southern independence; the dissolution of the Union; the disintegration, politically, of the whole country, and the utter destruction of all that we hold dear as citizens of the Great American Republic.—[Gold Hill News.

JUDAS betrayed his Saviour for "thirty pieces of silver." How much is McClellan to get from the Rothchilds and other holders of Confederate bonds, if he succeeds in betraying his country, and handing it over to their tender mercies?—[Chicago Tribune.

CORRESPONDENCE.

Our friends everywhere, who may at any time have knowledge of facts of local importance—incidents, accidents, mining news, doings of public meetings, improvements, curiosities, etc.—would confer a favor upon us and our readers generally by sending notice of the same to this office. Give us facts in any shape, and we will take care of them.

COUSINING.—A country gentleman lately arrived at Boston, and immediately repaired to the house of a relative, a lady who had married a merchant of that city. The parties were glad to see him, and invited him to make their house his home, as he declared his intention of remaining in the city but a day or two. The husband of the lady, anxious to show attention to a relative and friend of his wife, took the gentleman's horse to a livery stable in Hanover street.

Finally, the visit came a visitation, and the merchant, after a lapse of eleven days, found, besides boarding and lodging the gentleman, a pretty considerable bill had run up at the livery stable. He went to the man who kept the stable, and told him when the gentleman took his horse he would pay the bill.

"Very good," said the stable-keeper, "I understand you."

In a short time after, the country-gentleman went to the stable and ordered his horse to be got ready. The bill, of course, was presented.

"O," said the gentleman, "Mr. ——, my relative, will pay this."

"Very good, sir," said the stable man, "please to get an order from Mr. ——; it will be the same as the money."

The horse was put up again, and down went the country-gentleman to Long-wharf, where the merchant kept.

"Well," says he, "I am going now."

"Are you?" said the merchant, "well, good-by."

"Well, about my horse; the man says the bill must be paid for his keeping."

"Well, I suppose that is all right, sir."

"Y-e-s—w-e-l-l, but you know I am your wife's cousin."

"Yes," said the merchant, "I know *you* are, but your *horse* is not!"—[Baltimore Argus.

IN Milton's Paradise Lost, it is said that when Satan left the bottomless pit to come into this world on an errand of mischief, the gates of hell opened with difficulty, and on their hinges, "grated harsh thunder." We have by the aid of a medium, ascertained from spirits that the gates have been oiled since Copperheadism was inaugurated, and now any of that tribe can enter as easy as falling off a log.—[Ex.

POSTAGE.—Some people think they are not privileged to carry a sealed letter past a post office or over a mail route. It is a mistake. Any man has a right to carry a letter anywhere, as an accommodation. He has no right to carry it for pay, however, over a mail route—This regulation is simply to protect the Government against competition. For a letter carried merely as a favor, no stamp is required.

ADAH ISAACS MENKEN is in London, attracting attention by a showy little equipage she drives through Hyde Park. Kate Vance, another actress of much the same style, is about to proceed to England. The success of Miss Bateman in London has given quite a foreign fever to American actresses. Mrs. D. P. Powers, already well known in London, is soon to appear in the Adelphi Theatre in that city.

AN intelligent contraband makes the following sagacious statement:

"Well, you see, honey, de Lord has two great keys in His hand: one is de *Dar-Key*, with dat He has unlocked de Union, so all de niggers, as you call'em, will come out free; de oder is de *Yan-Key*, and wid dat de good Lord will lock de Union up again."

LITTUL MAC—little General, too; little politician; little loyalty; little consistency; little honesty; represents a little party, with little principle, and only becomes grand—big—as the magnificent humbug that blinded the American people when he commanded their armies. Now he is a *little* humbug—great only in littleness.—[Shasta Courier.

THE gallant Gen. Meagher, who was formerly a warm admirer of McClellan, and who the Grass Valley National intimated was the author of Little Mac's West Point cenotaph oration, now announces that he cannot support him for the Presidency. General Meagher cannot stand the Chicago Platform, and neither can any other patriot.

NEW YORK, no rational man can doubt, will indorse McClellan and re-elect the gallant Governor Seymour.—[Grass Valley National.

The Union majority in New York will be about 50,000.

RETURNS.—Officers of the election should send in their returns before Monday, November 13th.

DRESS.—On Tuesday next let every patriot dress to the *right*, and keep his eye on the great file leaders in the march of progress.

REMEMBER!—That a vote for the grave-digger of the Chickahominy, is a vote in favor of the recognition of the Southern Confederacy.

UNION MOTTO.—The whole *piece*.—Cop. motto: The whole piece—in pieces. Like John Van Buren, they go the Union in installments.

UNITED.—The War Democrats and Republicans of New Jersey have united upon an electoral ticket, and the chances are that the Grave-digger will not carry his own State.

WORTHY OF NOTE.—All the enemies of the United States in Europe believe in and hope for the success of General McClellan. The French Government papers in this respect go hand and hand with the London Times, Herald and Post.

BE PEACEABLE.—We caution Union men to be cautious on the day of Election. Seek no controversy or quarrel with any one, but at the same time, stand up for your rights as men and Americans.

20,000.—Will Plumas fail to do her share in making the Union majority in this State larger than it was last year. We hope not. Union men, to your post. California expects every man to do his duty.

ATTENTION.—The roll will be called on Tuesday next. Douglas said, "there can be no neutrals in this fight, only patriots or traitors." On which side will you enroll *your* name. You *must* choose.

23,000.—Last year, our coppery friends called us crazy when we said California would give 15,000 majority for Fred Low. Now we hazard another crazy prophecy that the "Eureka State will roll up a majority of 23,000 for Uncle Abe & Andy.

MUTTERING THUNDER.—Through the certain defeat of the Copperheads which stares them in the face, we hear the mutterings among them that the North will be convulsed with civil war when Lincoln is elected. If the majority elect Lincoln, and the minority rebel, it will be only another *rebellion* to conquer.—The majority must rule, else down goes a republican form of Government. No patriot can stand in any such company. Come out from among the unclean, all who really love the Union. It is our only salvation as a nation. Let not your countenance be lent to those who only use you as tools, and then laugh at your folly. If you are Union men stand among Union men, and not by association with Wood, Vallandigham, Pendleton and McClellan, be defiled by their belief.

MUDSILLS, TO THE RESCUE!

Next Tuesday, the People of these United States are to decide *the* question of this century. On the one side, stands armed treason, with Jeff. Davis as the representative man, aided and abetted by its left wing ramifying through Northern dough-faceism. The leaders of that faction declare to be true, that which has been sounded all through the South for years, that the North is the born vassal of the South,—that the oligarchs of slavery are the natural rulers of the Continent, and that the North must get down on its knees and lick the dust from the feet of the rebels.

On the other side, stands Lincoln, not only as the representative of Northern sentiment, but as the acknowledged head of the Republic. His hand has lifted the chain that bound millions of limbs with fetters, binding on body and soul, and broken it forever. His hand raises aloft the banner which carries with it the love of the nation, and which comes across the vision of the down-trodden as a harbinger of light and hope. Its Stars depend for their very existence now upon the votes of our citizens. Mudsills, support Lincoln; for in giving him your support, you nerve the hands of our brothers in the Army and Navy. Your affirmative votes for Uncle Abe will be a tower of strength to Grant, Sherman, Sheridan, Butler and Farragut. Your negative votes will *give away*, without a decent consideration, all the glories of the victories of this war, and place us in sackcloth and ashes as a nation, and will give to our children a heritage of shame and bitterness, and close out forever the bright anticipations clustering around the American name.

Build the foundation strong for freedom. Let us relight the lamps which guided the feet of our fathers, and glowed so brilliantly in the days of Washington and Jefferson. Roll not back the onward march of freedom, but like giants in the strife, strike in the name of liberty and Union, for freedom, for Constitution, and for law.

Oh, never let it be said that the sons of those who made '76 a glorious epoch in the world's history, were so cowardly and pusillanimous as to give away all those blessings which were obtained by our fathers through blood and sorrow, and bequeathed to us for our enjoyment. But let the fire of patriotism burn on the altars of your hearts for the purification of the land. Rally for the Old Flag! as the emblem of the Union. Rally with those who stand in a united phalanx for the country. Let not your skirts be draggled in the mire of a treasonable faction, on the day when the People shall rise in their might, and hurl back into primeval darkness the advocates of a cowardly and disgraceful peace. Don't get yourselves into a position where argument is necessary to *prove* you a Union man, but plant yourself firmly on the only platform which looks to a union of these States, as the only blessing worth living for in the eyes of a citizen. To the rescue, patriots! and let the election set at rest, forever, the hopes of the traitors, *that out of our division they will succeed!*

"IF RICHMOND WERE FASTENED TO THE HEAVENS.—Hassaurek, the German orator, has the measure of the spirit of the American people, and of its inexhaustible power to carry sacrificial offerings of its own life, blood and treasure, and to lay them unweriedly upon the National altar. He said to his "dear old Cincinnatti" early in October:

"Let us tell the doubters of Europe that a people capable of such sacrifice is not to be discouraged or foiled; that its unalterable determination is not to be arrested or changed. When Wallenstein besieged Stralsund, he declared that he would take it, if it were fastened to the heavens with iron chains; and when the American people declare their fixed and sacred determination that the glorious Union, the work of the Declaration of '76, cemented by the blood of our fathers and our own children, shall be maintained intact and entire, from the Atlantic to the Pacific, and from the shores of Maine to the Gulf of Mexico, then by the Almighty it will be done.—If Richmond were fastened to the heavens with iron chains it would be taken. If it should require a war of three years more to conquer the rebellion, it would be conquered. There is no such word as 'impossible' in the vocabulary of the United States."

CAL. LEDGER.—Some time, since an agent for the above named paper was in this county, and succeeded in getting a large number of subscribers, mostly Union men. The paper is now one of the meanest copperhead papers published in the State, and as a literary paper is far inferior to the Golden Era, Mercury or Californian. We learn that a number of our citizens who, as they say, subscribed for the paper to "get rid of being annoyed by the agent," have given orders to the publishers to stop their papers. They have got enough already.

WRONG.—The Appeal, Sacramento Union and several other of our exchanges place Jamison Creek and Eureka Mills in Sierra county. The above named places are in Plumas county.

LIGHT'S CANON DEMOCRACY MOVING. CHEERING SIGNS FOR McCLELLAN!!

A friend sends the following for publication, and vouches for its authenticity:

At a meeting held at Lightes Canyon, Sept. 12th, 1864.

Your comitey would respectfulley submitt to your consideration the folowing Resolutions:

Resolved, That we pledge our support in the coming election of President and Vice President on the Seventh day of November next to the nominations of the Chicago Convention.

Resolved, That in the future as in the past we will adheare with unswerving fidelety to the Union under the Constitution, as the onley foundation of our strength, securety and happeyness as a people under a fraim worke of government equally condusive to the happeyness prosperety And willfare of all the staits boath north and south and east and west.

Resolved, That we as Democrats will obhold that constitution lit it be assald by fowkes north or south east or west and we pledge our selves to support it against all enemeys.

[It seems that an Arkansas emigrant present, claimed the right to be heard as a member of the "very excellent Democratic institution," and introduced and insisted on the adoption of the following resolution.]

bee it *Rezolved*, Thet thee hul yanky sistim of freskules & ralerodes & workes of enternil emprovments jineralei hev ben thee kuss of the kuntre & thee distruckshun of dimekrat Instytushuns & brout on thee prisent bloddi & onhappe abilishun Wor agin our sutherne brithrin

The introduction of this resolution seems to have brought on a most animated discussion, in which the seven or eight enlightened patriots present all took part, all occupying the floor at the same time, Arkansas insisting most truthfully, that his resolution was "most in pint to the rael isher," and the "meting" finally adjourned amid much "moise and confusion," leaving their resolutions on the floor, where they were picked up by one of our Union boys who had enjoyed the rich scene hugely, and who insists on their publication, not only that the enlightened sentiments of the Light's Canon Democracy may go forth to illuminate this benighted abolition age but that the Unionists of that mining camp favor free discussion and a "free press."

MCCLELLAN.—We do not and cannot believe Gen. McClellan sufficiently loyal ever to have sought or desired the rout and dispersion of the rebel armies, and the consequent collapse of the rebellion. Had he been so, we know that he would not have held that gallant, glorious army of the Potomac, one hundred and fifty thousand strong, paralyzed, beseiged, virtually imprisoned in the defences of Washington, by less than a third of its number of rebels, throughout that long bright autumn, and fore part of the winter of 1861.

Gen. McClellan is not a great Commander; but he had an army which, if simply left to itself, would have swept the rebels like chaff across the Rappahannock before the middle of December. Why, then, did he fail to do it? Because he did not try. Because he was waiting and holding off for a pro-slavery compromise when he should have been fighting for a peace.—[Ex.

ST. PAUL'S OPINION OF COPPERHEADS.—The Apostle Paul, the firm friend of freedom, seems to have had the traitors and copperheads of our day in view when he said: "In the last days perilous times shall come." Men, he tells us shall be fierce, traitorous, seditious, truce-breakers, false accusers, despisers of those that are good. He also tells us they will be unthankful, unholy, and without natural affection. And if the copperheads don't fill this bill of indictment, we are sadly out. Then again when Paul tells us of parties given over to strong delusion to believe a lie, that they may be damned, we think secessionists, copperheads and traitors are especially addressed. The indulgent nation of America has nourished and brought up children, but they have rebelled against their good parent, and seek her life. In their wild efforts to stab their parent, they manifest a heartlessness and a lack of all natural affection, without precedent in the annals of crime. They are traitors, they are false accusers, they are despisers of all the good. They abhor every true and loyal man. And had they the power they would destroy the lives as well as the liberties of all who are now earnestly, honestly, and faithfully endeavoring to preserve the institutions of freedom. We decidedly agree with Paul in his photograph of copperheads and base ones.—[Petaluma Argus

WHO IS AUGUSTE BELMONT?—Sam. Medary, editor of the Columbus, Ohio Crisis, a leading secesh journal, answers the question in this wise:

He is a foreigner, a connection by blood or marriage of the Rothschilds of Europe, and their agent in New York, to manage their immense moneyed concerns in this country. He lives in the style of European nobility, feeds and drinks well, and is put by the money-mongers and shoddy contractors of Wall street, who claim to be War Democrats, at the head of the Democratic party, to keep it *conservative*.

BEFORE THE ELECTION.—The Country to McClellan—"Are you for war or for peace?" McClellan to the Country—"I do not remember."—[Union.

AFTER THE ELECTION.—The people to McClellan—"Were you ever a candidate for the Presidency." McClellan to the people—"I do not remember."

STAND BY THE ADMINISTRATION.

Because it has engaged in a struggle to rescue the country from the gigantic rebellion, and a long cherished treason.

Because it is attacked by enemies who have sworn to destroy the Union.

Because it makes an honest effort to preserve our institutions, and to maintain popular liberty.

Because the traitors are making every effort to destroy its power and embarrass its exertions.

Because your interests are at stake in the contest.

Because millions of people are to be sacrificed if we fail.

Because the rights of man are assailed.

Because the hopes of human liberty will be animated or blotted out forever.

Because it is a contest for national life and honor.

Because the happiness and liberty of our children are to be sacrificed or preserved.

Because millions yet unborn will curse our memories if we fail.

REMEMBER that by voting for George Benedict Arnold McClellan, you sanction and indorse every act committed by the perjured scoundrels who are now in open rebellion against the Government.

Americans! will you vote to elect a man for your Chief Executive who is pledged by a platform made by traitors to make a dishonorable peace with the murderers of you fathers, mothers, wives brothers and sisters? If you would, then vote for McClellan—he is your man. If you would not, then vote for Abraham Lincoln.

Americans! if you desire to see the rebellion crushed out, the Union restored and the leaders of the hellish confederacy punished, vote for Lincoln. If you desire to see your country disgraced, divided, split into fragments, and the guilty authors of our country's calamities escape scot free, vote for McClellan.

On your decision at the ballot-box depends the future of our country, and upon you rests the responsibility. God grant that you may choose the right!—[Gazette.

GOING IT ALONE.—Gen. H. P. Russell, formerly of this valley, is having some trouble in regard to the Carson Valley Fair. Here is what the Union of Oct. 19th says:

Clemens, Treadway, Ellison and Nevers publish a card in the Carson Post, stating that, in accordance with a previous publication, there will be no Fair held this Fall under the the auspices of the Society. They say that the pecuniary condition of the country, at present, offers a strong and potent reason for the postponement, and another of equal weight is in the fact that in the early part of September last, the biting frost in a great measure destroyed or, at least materially injured the vegetation of the valley. On the other hand, H. P. Russell, "President M. & M. Society," insists upon having a Fair, if he has to "go it alone."

ILLEGAL VOTES.—Union men, go to the polls early. Challenge the vote of any and every person who attempts to vote, of whose right of suffrage there is any doubt. Remember that it requires an actual residence of six months in the State, and a residence of thirty days in the county, to entitle any person to a vote at this election. Watch out for immigrants and Washoe-ites!

THE RESULT.—The man who got off the following must be a prophet:

"Go" said he, "to a large frog pond, and you would imagine all the frog fraternity of the globe had met for the exercise of vocal powers; but just throw a chunk in and there will be a profound silence. These Lincolnites will throw a chunk into the pond on election day, and you won't know there ever was such a thing as a Copperhead."

WHO TAKES PASSAGE.—On Wednesday morning next, the floating coffin which will carry the remains of the defunct Confederate Copperhead Democratic party will leave for Salt river, through without stopping, as New Jersey, their only way station, is closed against them.—Parties voting the ticket headed G. B. McClellan, are entitled to a free passage. All aboard.

SUPERVISORS.—Property owners and tax-payers of the 3d Supervisor District without destinction of party, if you wish to be represented by a man, capable and trustworthy, and one who knows how to conduct the affairs of the county in an economical and business-like manner, see that you vote for Andrew Miller, the Union candidate for that office.

HON JOHN A. PETERS in a recent speech at Portland, Maine, "brought down the house" with the remark: "If McClellan couldn't take Richmond, making Washington his base, you may safely swear he will never take Washington, making Richmond his base!"

THE Grass Valley National says that in the shower on Tuesday night, a large number of worms fell.

Yes, and in the shower of Union ballots on Tuesday next, "snaix" will fall considerably, if not more.

IF McClellan in arms, marching at the headlong speed of *three miles* a day, was unable to overtake Lee, how long will it require him, marching under the craven's banner inscribed with "Peace, by granting what the rebels demand!" to go from Chicago to the White House?—[Ex.

RECOGNIZED BY NOBODY BUT COPPERHEADS.—The Confederates are in a bad way. They have fought three long years for recognition. But not one respectable power in the whole world have they found ready to take them by the hand, and invite them into the household of nations. Even Louis Napoleon, himself a usurper and tyrant, has given them the cold shoulder, and at last inflicted "the severest cut of all," in declaring that with their "independence" established, he won't recognize them as long as they keep slavery. Even he is disgusted with the barbarity of their favorite institution.

Nobody can the Confederates get to recognize them, except the Copperheads of the North. They, poor, crawling dirt-eaters, have expressed themselves eager to do so. They are not offended with slavery, which turns the stomach of even a Louis Napoleon. They are the only party which, in this age of light and freedom, has been found ready to acknowledge the respectability of a pretended nation founded upon the corner-stone of the most galling oppression. Poor Confederates! Poor Copperheads!—[Missouri Democrat.

WITH McClellan in the White House and Vallandigham in the War Office, the country would very soon be at the feet of Jeff. Davis; and it is in the bond that Vallandigham shall be Secretary of War if McClellan is elected.—[Cincinnati Gazette.

That would just suit the simon pure Copperheads.

RESIDENCE.—According to the opinion of Attorney General McCullough, it requires an *actual* residence of six months in the State and thirty days in the county, to give any person a right to vote at the next election.

IF YOU wish to politically damn the men who are seeking office in loyal California, but are at heart friends and sympathisers of treason, and are in hopes that the South will whip the fight," vote the Union ticket.

TALLY LISTS.—If some of our friends in each precinct will forward us a list of the number of votes for each of the candidates, cast at their precincts, they will confer a great favor upon us.

COUNTY NOMINATIONS.—Union men, see that the names of J. T. Taylor, for Surveyor, G. W. Meylert, for Sup. of Public Instruction, R. C. Hayden, for Public Administrator, J. S. Root, for Coroner, are upon your ticket.

TWO HUNDRED MAJORITY.—If the Union voters will but do their duty on Tuesday next, Plumas county will give over 200 majority for the Union ticket.

REMEMBER!—That a vote for Geo. B. McClellan, is a vote in favor of peace on any terms which Jeff. Davis and his fellow traitors may dictate.

A BAR of gold, valued at $10,618 25, is the result of one week's run of the Crescent City Quartz Mill, in Indian Valley, Plumas county. This, it will be recollected, is a regular dividend-paying company. Their last dividend was $50 per share, payable on the 1st of the present month. This company is worthy of a more general notice than it receives, as a productive California mine.—[Press.

THE editor of the Oregon Statesman is a true prophet. He says: "McClellan will get about one-third of the Copperhead vote—the Chicago platform will get the other three-fourths. The combined votes of both will not be numerous enough to elect either of them. But either will get enough to eternally damn both."

GEORGE FRANCIS TRAIN, writing to the New York Express, says: "The Chicago platform may be summed up in two words—'Beat Lincoln.' The Union platform can be expressed in three words—'Beat the Rebels.'" That is the difference.

ADDRESS of the Union State Committee of Pennsylvania to the people: "Shall we have lasting peace, through a vigorous prosecution of this war for national life, or interminable war, through a peace based upon disunion?"

FREIGHT.—The past few weeks, our railroad has been doing a wholesale business in the freight line. Notwithstanding the constant flow of teams carrying off the freight to the mountains, the quantity is too great to be crammed into the warehouse.—[Oroville Record.

WILL BE DAMNED.—The fact that the Chicago platform was written by Vallandigham, and the nomination of McClellan made unanimous on his motion, is enough to damn both to everlasting infamy.

VOTE.—For Honest Abe Lincoln and Andy Johnson, the friends of the people.

A GREAT MEDICAL DISCOVERY.—For many years the medical faculty have been puzzling their brains to discover a specific for diseases having their origin in derangement of the nervous system, but their study was of no use until Talbot Watts discovered a medicine that is now known the world over as Watts' Nervous Antidote. This remarkable medicine does not contain anything injurious to the system, being compounded from vegetable substance entirely. It contains no mercury or opium, and yet its effects are like magic. Under the influence of it the patient's nerves become quiet, and he falls asleep. Persons that have suffered for years with physical debility, are relieved at once by the use of the medicine, and in a short time are completely restored to health and vigor. The Antidote will cure rheumatism, neuralgia, and in fact all diseases arising from derangements of the nervous system.

Deaths.

At the Glenn House, Butterfly Valley, Oct. 24, Willie, son of Albert E. and Agnes T. Brown, aged 3 years.

At Susanville, Lassen county, October 29th, of quick consumption, John Anderson, aged 23 years.

Special Notices.

IF YOU ARE GOING TO SAN FRANCISCO, and want a good suit of rooms, with good board, in a quiet and healthy neighborhood, go to the Railroad House, on Commercial street. The Railroad House Coach conveys passengers to the House free of charge. 50-td

LOCAL ITEMS.

SUPERVISORS.—The Board of Supervisors will be in session on Monday next, the 7th inst.

THANKS—To Messrs. Edwards & Dow, for favors rendered this office.

NEW ROAD.—A wagon road is being built from Sawpit Flat to Butte Bar. The road will be completed in a short time.

BIG.—Over $700 was taken out of Messrs. Carr & White's mining claim, at Nelson Point, one day last week.

RETURNED.—J. W. Deusler, Esq., who has been on a visit to the East during the past ten months, arrived here by the stage one day this week.

POST OFFICE.—A new Post Office has been established at Copper Vale, Mountain Meadows, Lassen county—C. C. Goodrich, Postmaster.

FOR THE STATES.—Quite a number of our citizens intend leaving for the Eastern States next week. We wish them a pleasant trip.

MACHINERY.—The Butte Bar G. & S. Mining Company has purchased the machinery necessary for putting up a quartz mill at Butte Bar, to work the quartz from that ledge.

HONEY LAKE.—A letter from our correspondent, at Susanville, giving an account of the Copperhead barbecue, &c., is published on the first page.

GOOD NOMINATION.—Hon. C. C. Goodwin has received the nomination for District Judge of one of the Judicial Districts in the (soon to be) State of Nevada. He will be elected by a large majority.

TAXES.—By paying your taxes before the third Monday of this month, tax-payers will save themselves from paying extra percentage and costs. Pay up!

COURT.—The regular term of our County and Probate Court will commence on Monday next. There are no cases on the County Court Docket for trial.

"SKULE MASTER ABROAD."—Read the resolutions of the "Dimecratic" Club, at Light's Canon, and learn what was the cause of this "unhapper" war.

SCHOOL.—The Trustees of Quincy School District have fitted up the lower room of the Masonic Hall for a School room. The school commenced on the 17th ult.

STAMPS.—Any and every receipt for any sum of money over twenty dollars requires a two-cent revenue stamp. Merchants and dealers of all kinds should bear it in mind. A violation of the law incurs a penalty of fifty dollars.

BALL.—By reference to a notice in another column, it will be seen that the Christmas Ball, to be given at the Vernon House, at Taylorville, will come off on Monday evening, December 26th, instead of Friday evening, as first announced.

"STRUCK IT."—We learn that Messrs. Firmstone & Co., who have been at work for some time past, sinking a shaft on the flat, about one mile north of Spanish Ranch, have found gravel which prospects as high as one dollar to the pan.

UNION MEETING.—The Union men of Lassen county were to hold a grand Union Mass Meeting, at Janesville, on Thursday last. Mr. Buckbee, and other speakers were to address the meeting. From all accounts, Lassen county will give over two hundred majority for the Union ticket.

MORE HOME STAKES.—Cummings & Co.'s claim at Dutch Hill, is paying hugely. The company took out one hundred ounces of gold, for one week's work, a short time since. The claim has averaged over fifty ounces per week, for the last month. Morris & Co.'s claim, on the North Fork, is paying an ounce per day to the hand.

EXPRESS.—No Mail or Express will be received to-day, (Saturday). The stage on the lower end of this route having been engaged to carry passengers to the Union Mass Meeting, which was to come off at Oroville, on Friday, (yesterday). The Mail and Express matter will arrive to-morrow, and the stages will renew their regular trips.

WHITLOCK'S COMPANY.—From a letter, written by J. C. Coburn, a member of the above-named Company, we learn that the Company were to be discharged last month. They had received orders to report at the Rio Grande, preparatory to receiving their discharge. A large number of the soldiers are going to the States to re-enlist. They go in companies by the way of Santa Fe and Independence. Some of the members of Co. F, Whitlock's company, intend to return to this county, for the present.

LIST OF LETTERS—Remaining in the Quincy Postoffice, Nov. 1, 1864. If not called for by December 1st, they will be sent to the Dead Letter Office:

Silas A. Boid, Charles Billings, B. Bishop, Mrs. Abigail Bartlett, Antonio Coperzino, Edward Dalton, Elliott Holmes, (2), R. H. McDonald, Jacob Martin, Samuel B. Miller, E. W. Prescott, Martin Rubel, Philander Runnels, Patrick Sloan, James C. Thompson, Jackson Wilkerson.

J. MOORE, P. M.

NEW MINES.—Some time since, the Spanish Peak G. & S. Mining Company filed Articles of Incorporation. The company was formed for the purpose of prospecting and mining near Spanish Peak, in this county. The company has been at work, sinking a shaft, for some time past, and struck pay dirt a few days since. The company feels certain that they have found some of the richest mining ground in the county. Hundreds of claims have been staked off on both sides of the company's ground. We have no doubt but that it will prove to be one of, if not the most extensive mining localities in this State.

WHISKY ON THE BRAIN.—The usual monotony of our town was slightly disturbed a few evenings since, in the shape of a "wee bit of a row," between a couple of our "fast 'uns," who had been drinking too much "corn corgil," and one of our peace officers. The whisky drank, must have been of the "McClellan brand," as one of the individuals was rather abusive of Union men, and wanted to whip the whole country. The officer who attempted to quiet him, was assaulted, and received several "hefty" blows. And in consequence, one of the assailing party was lodged in jail over night. Such scenes and affrays should be guarded against; particularly at the present time, when the smallest provocation might lead to serious results.

VOTE EARLY.—You can vote but once; therefore see that your ballots are in the box in good season.

BIDWELL.—See to it, that the name of JOHN BIDWELL, the Union candidate for Congress, is upon your ticket.

HOWARD Private Medical INSTITUTE.

No. 537, Sacramento st., San Francisco.

Consultation, by Letter or otherwise, Free.

ESTABLISHED FOR THE CURE OF DISeases of a private nature, such as Ghonorhoe, Syphillis, Spermatorhoe, Mercureal Complaints, Gleet, Stricture, Seminal Weakness, Impotency, Rheumatism, Fever and Ague, Skin Diseases, Seminal Emissions, and all diseases brought on by indulgence or accidents.

The Howard Institute

is under the immediate charge Dr. P. Howard who has become justly celebrated for his successful treatment of diseases of the above nature, without the use of Mercury in any form.

NOTICE.—The Doctor having been waited on by numerous friends and societies since his return from Mexico to resume lecturing, takes this occasion to state that though he appreciates the compliments thus tendered, it will be impossible for him to accept their invitations, as the new arrangement in the routine of the HOWARD INSTITUTE demands his constant attention, and not feeling willing to entrust the treatment of the patients to other hands than his own, takes this occasion to respectfully decline all calls to lecture out of the City of San Francisco.

In re-opening this old and popular institute once more to the people of the Pacific Coast, the Doctor is governed by a desire to not only afford an asylum for the afflicted, but to SUPPRESS QUACKERY, which has of late so boldly and impudently come before the public.

They claim to have certificates of remarkable cures, or some before unheard of distinctions of foreign bestowing, of European Education, and European Medicince, thus misleading the afflicted who are are not aware of the utter uselessness of foreign medicines and foreign practice when applied to diseases in this variable climate.

Of such parkados the Doctor warns those seeking remedial relief to beware for they but seek to deceive and ruin your health.

To his old patrons and the public in general the Doctor would say, they can rely upon his known skill and integrity as heretofore, with every assurance of a speedy and permanent cure in all possible cases.

The Doctor's charges are moderate and well suited to the means of the patients.

The Howard Institute is located in the center of the city, and is fitted up with every convenience for the comfort of the afflicted. The patient will here find everything to his wish, and can enter and leave the Institute without fear of fear of Observation.

PERSONS LIVING IN THE INTERIOR who may prefer being cured at home, by sending a careful description of their disease, together with the length of time they have been afflicted, can have their medicines carefully put up and sent to any part of the Pacific coast by Express or Mail, together with full and explicit directions, so as to enable them to bring about a speedy and permanent cure without entailing upon them the necessity of visiting the city.

All letters should be addressed

DR. P. HOWARD, Howard Institute.

No. 537 Sacramento st., San Francisco, Cal.

The Institute is two doors above the What Cheer House, and adjoining the Banking House of Donahoe & Co.

The Doctor himself opens and answers all letters, and correspondents can rely upon the strictest secrecy. Consultation by letter or otherwise, FREE.

To the Ladies.

When a female is in trouble of whatever nature or afflicted with a disease, such as Weakness of the Back and Limbs, Pains in the Head, Dimness of Sight, Loss of Muscular Power, Palpitation of the Heart, Irritability, Moroseness, Urinary Difficulties, Derangment of the Digestive Functions, General Debility, all diseases of the Womb, Hysteria, Sterility and all other diseases peculiar to Females.—They should go at once or write to Dr. Howard at his Medical Institute. Let no false delicacy prevent you, but apply immediately and save yourself from painful suffering and premature death.

The Doctor's Office is so arranged that he can be consulted without fear of discovery.

DR. HOWARD'S PRIVATE PILLS.

Have come to be universally acknowledged to be the only compound to be depended upon for the removal of all cases of suppression, Irregularity or Obstructions of whatever nature and of however long standing.

Ladies having reason to believe they are pregnant should be careful to avoid using them as they would surely cause a miscarriage. They will be forwarded to any part of the Pacific coast on the receip, of $5 per box.

Consultation by letter or otherwise free. All letters must be addressed to

Such as neuralgia, paralysis, giddiness, dimness of vision etc., will receive special attention.

DISEASES OF THE SEXUAL ORGANS,

Male and female, are treated with all the skill and appliances which modern science has made available. Nauseous drugs and nostrums, which are so often administered for weeks without benefit, are entirely discarded, and a few days only are required to accomplish a perfect cure.

SECONDARY AND HEREDITARY AFFECTIONS.

Scrofula in all its manifold forms, Dyspepsia, Emaciation and debility, treated with certain and unfailing remedies—speedily expelling all corrupt humors, and imparting a healthy tone to the blood, regulating the secretions, and reinvigorating the vital powers.

Twenty years practice in different parts of the world, has given the Doctor advantages possessed by few, and his remarkable success warrants a promise of effectual cure.

Medicines with full directions will be sent to any part of the State on receipt of letter describing symptoms.

An Infirmary is connected with the establishment, where patients who desire may receive board and constant attention during their sickness, thus avoiding the inconvenience of a hotel. Kind and attentive nurses will be employed, and no means will be left untried to give full satisfaction. Consultation free.

TO THE LADIES.

Females in trouble, or afflicted with disease, are respectfully invited to call on DR. MOORE and consult him about their troubles. His uniform success in his treatment of female suppression and kindred diseases, is a sufficient guarantee of his scientific attainments. Let no false delicacy prevent you, but call at once, and save yourself from future suffering and misery. Consultations are confidential, and his offices are arranged for the strictest privacy.

ELECTRICITY —AS— REMEDIAL AGENT!!

When it was promulgated that disease could be entirely eradicated from the system without the use of poisonous drugs, the unthinking or those who did not look deeply into cause and effect, scouted the assertion as chimerical, and adduced strong evidence of its utter impossibility. Long articles, replete with arguments, seemingly unanswerable, of the position that only through the digestive system could the blood be purged of the accumulation of the poisons which constitute disease. A great cry went up from the interested in the continued supremacy of the old system of one poison to cure another, that electricity as a curative agent, had been tried and proved to be of but little if any value—thinking poor souls, the world of science stood at the same point it occupied one hundred years ago. They were wrong, while those old fogies were content if they cured one in every five patients, there were those who were searching into the science of electricity, and finally it was discovered that the trouble was in the instruments used. From that time to the present, improvements have rapidly advanced, until every disease in the catalogue of human ills have been either cured altogether, or checked so as to enable the sufferer to seek changes of climate which ultimately perform a perfect cure. Diseases hitherto considered incurable, have been cured, and those diseases which took months, and even years, to cure by medical process, are now cured in a few weeks; relieved by the *Improved Instruments* of Dr. J. H. Josselyn, Resident Physician at the Electropathic Institute, 646 Washington street, San Francisco. It is astonishing to see the number of patients and diversity of diseases that have been relieved by the electropathic system. From early morn till late at night his instrument is engaged, imparting health and strength to all who have the good fortune to obtain his services.

The charges, too, are not as heavy as by the old system; besides, there is no medicine to pay for, let alone the unpleasantness of swallowing the nauseous stuff. During the time the Institute has been in operation, there has been more benefit to the human family derived from the system, than from all other systems combined, during the same period. Among the most troublesome diseases to which Californians have been exposed, is RHEUMATISM. None have given the honorable practitioner more trouble to relieve and none have pretended to cure (if we except known empirics) permanently. But this subtle disease gives way before the Electropathic system in a very short time, enabling the sufferer to go about his business without pain, and the dread and fear of a relapse. And so with most other diseases, considered incurable. We mention Rheumatism because of its abundance, but we could enumerate many many other diseases full as troublesome, and some far more fatal in their results. There is one more troublesome disease or disorder, which stands upon the calendar, which is fatal to both body and mind. It is one about which there has been more deception used by empirics, because it is of a private nature.

We allude to sexual debility, paraded by quacks in the journals of the day, a trouble which never was cured by medicine, only a little strength imparted by the use of medicine, only a little strength imparted by the use of tonics—The poor victim is taking medicines and paying for them until his last dollar is gone, and then as soon as he undertakes to work to obtain more funds, the trouble comes back in all its loathsomeness. To this disease Electropathy is peculiarly applicable, its action being upon the spermatic nerve, strengthens the secretory organs, and at the same time creatin an equilibrium in the system, thereby preventing a relapse.

We dwell upon this disease because it is one about which there has been more deception used than all others put together. It is not necessary to enumerate all the diseases in the catalogue, for that would be occupying space to no purpose. Every disease has been under treatment by this system, and there are none but have received benefit, either in this State or at the East.

There are, at present very few Instruments in the world that can be depended on. A good Instrument costs very heavy, and cannot be purchased unless ordered, and there are very few who are able to manufacture them, for want of knowledge of the healing principle. The only instrument to be depended upon in this State is at the Electropathic Institute.

Connected with this system are the renowned Electro-Magnetic Baths Here let us caution the public against the numerous imposters in the bathing line. The pure magnetic bath is one of the most effective aids in the removal of disease from the system; but if given at the wrong time is likely to aggravate trouble, and cases have been known where the patient has been injured so badly as to require months to remove the injury. Persons in quest of this bath should be careful not to apply to a place where there is no physician to judge of the necessity of the remedy. In fact, the only place where they can be obtained, in all their purity, is at the Institute, where the Resident Physician will always be happy to examine and see that they are not unseasonably administered, and if not necessary, advise the requisite remedy.

TO FEMALES, the Directors would say, Electropathy is particularly applicable to your delicate and fragile systems, and to the numerous troublesome and painful diseases to which you are liable; should you be irregular, a few treatments will restore the functions to the proper state without pain or inconvenience, should you be weak and enfeebled, either general or local, this system imparts strength and vitality, making the recipient feel buoyant and healthful, where before they were languid and unable to enjoy the pleasures of life. One great blessing connected with Electropathy is, it purifies the system so thoroughly that it beautifies the complexion, making the coarse and freckled skin as pure and fair as possible, giving the patient a pure and healthful look.

To the nervous the Directors would say, that you can be entirely relieved from those dreadful feelings of evil forebodings, and your system strengthened so that nothing can disturb the current of your life Several cases of insanity, arising from a disarrangement of the nervous system have been entirely cured by this system. The Directors in making this statement, do it in the hope that it may be the means of awakening the public who have not studied in such things, to a sense of their duties, and if possible prevent those who have the care of the rising generation, from poisoning their young charges with vile drugs, thereby entailing upon them troubles, which in after life may cause them to curse their origin. Also, that those in need of remedial agents, may know where they can find them, without resorting to taking the thousand and one poisonous nostrums that are continually being palmed off as sovereign remedies for all the ills of humanity. Avoid them all—they are snares set to rob you, and to your bodily injury at the same time. The following is the list of cases which have been successfully treated by the Electropathic system, at the Institute, during the four first years of its establishment. The record is good, and challenges the admiration of the world.

Rheumatism	1580
Neuralgia	1492
Dyspepsia	1467
General and Sexual Debility	1410
Fever and Ague	1260
Dumb Ague	1210
Bronchial Affections	1106
Asthma	1049
Female Irregularities	1022
Mercurial Affections	938
Scrofula—long standing	922
Paralysis	832
Diseases of the Eye	832
Catarrh in the Head	705
Catarrh in the Lungs	608
Liver Complaints	700
Incipient Consumption	582
Panama Fever	563
Deafness—total and partial	480
All other—and among which is almost every nameable disease	2186
Total	21,373

The above shows what can be accomplished by combined energy, when it has truth and science upon its side. The Electropathic Institute was started amid the cry of interested charlatans, who use all the power their riches and the prejudices of the public gave them to prevent its success. It has risen to a position that is beyond their baffled malice and will be honored in the scientific world when they are forgotten, or only remembered for their crimes and impositions. A thinking public are fast consigning them to that oblivion their works merit. Let them go, they will not be missed.

Persons seeking remedial assistance may wish to know something of the system by which diseases are so rapidly removed from the body. Electricity is a fluid of so subtle a nature that it can only be studied by its results. We know by its action it forces everything of a foreign nature in the body from the centre to the surface, while the vitality that it imparts fills up the vacuum, preventing thereby the subtle poison from returning to the hitherto diseased parts—and here let it be understood, that the bath should never be administered *until the disease has been forced to the surface* except, in cases where fever has not set in. Its action upon mercurial diseases is peculiar. The best authorities are of the opinion that it liquidifies the mercury—which, when in a liquid state by its own specific gravity forces itself out of the body. This result has been arrived at by testing the water after an Electro-Magnetic Bath. After such tests have been found in the water, the patient is not troubled any more with those pains peculiar to the diseases. In all other cases it forces to the surface and is washed of by the bath. The whole system in its application is a luxury—there being no pain or inconvenience attending upon it; but the reverse is the case—being one continued pleasure all the time. Try it, you that are suffering from disease or the injudicious use of poisonous drugs and you will be made to rejoice that you had the courage to strike out from the beaten path.

Below are a few certificates from patients that have been cured at this Institute:

The undersigned takes this method of acknowledging publicly the benefits he received from the treatment applied to him at the Electropathic Institute, 645 Washington street. When I applied to Dr. Josselyn I was cramped up with Rheumatism and also had the coast ague. So bad was I that, without relief I don't think I could have lived more than a week. The Doctor with his instrument relieved me the first treatment from all pains, and perfectly cured me of all disease in twenty treatments, without the use of medicines. I cordially recommend all afflicted to patronize the Institute, for it is truly a blessing to the afflicted and the operation is very pleasant. I wish to thus publicly thank Dr. Josselyn for his care and sympathy.

DR. JOSSELYN.—Dear and Honored Sir:—You requested me to let you know how I feel after being at home three weeks. Well, sir, I have now been here a little over two weeks, and there is no return of that unpleasant trouble.—My sleep is sound, and there is no disturbance of the regular laws of nature. I feel as strong as ever I did before bad habits had weakened my system. Not only has the general debility entirely disappeared, but the local trouble is gone. I feel so strong that there is no fear of its return. Considering that you only took one month to cure a disorder of seven years standing, I think your system is almost miraculous. Accept my sincere thanks, and publish this if you please. I have sworn to it as you see.

HORNITAS, Nov. 1, 1860.

Well, Doctor, I am at home and have been to work in the water for several days, and there is no return of the Rheumatism, as I call it and Mercurial pains as you state them to be. I feel as gay as a lark, no pain or bad feelings, but perfectly well, and all done by you in three weeks, without one drop of medicine. You had hard work to make me believe before you commenced that you would cure me, but now I find it easy to believe, though my friends look rather incredulous, but they cannot doubt my sober earnestness. Doctor, you have my thanks, and I will benefit you all I can by spreading your fame up in these parts.

Respectfully yours, GEO. PERKINS, JR.

To J. H. Josselyn, M. D., Resident Physician at the Electropathic Institute.

NEVADA, Nov. 8th, 1860.

Dear Doctor.—Pursuant to agreement upon my arrival, I sit down to pen you a few lines in acknowledgment of the great service you have rendered me, in relieving me of that painful case of Neuralgia and Rheumatism. When I look back and see the gallons of medicine I have swallowed to no purpose, and then to think how soon you cured me, I am astonished. You were only twelve days performing a cure of the trouble for which I have taken medicine over six months. Dear Doctor, if you could see the wonder exhibited by my friends, who can hardly believe that a cure was performed without medicine, but here I have been cured, and I have not taken a drop of medicine from you nor from any one else while being treated by your splendid Instrument. I shall show my gratitude by sending every sick man I come across to you. Yours, till death,

DR. JOSSELYN—Dear Sir:—Your letter, dated October 16th is before me. You wish to know how my bronchial troubles are. Now, Doctor, that looks a great deal like a joke. I once had such an affection, of several years' standing, but thanks to your natural mode of treating disease, it has gone to be numbered with the things of the past. Since my return I have not felt the slightest trouble from it. When you pronounced me well I did not expect to ever hear from it again. Any one who sits under treatment of that Improved Instrument of yours, will have the same feelings. It imparts vitality to the system so rapidly that confidence is at once established. I have to thank you that you did not refuse to treat me because I could not pay the whole of your reasonable charge; Inclosed is the balance due you, and God bless you for the kind treatment I received at your hands. Yours, ever grateful, WM. GARDNER.

This is to certify, that the undersigned, was troubled with dumb ague accompanied with rheumatism, very badly. My disease was taken in Washoe. After having exhausted medicines without benefit, I applied to Dr. Josselyn at the Electropathic Institute, on the first day of November. After taking twenty treatments with his Improved Electropathic Instrument. I am perfectly cured, having been entirely relieved of all pain or inconvenience. I feel as strong as ever I did when in the best of health. I cheerfully recommend all afflicted to his care, as being the best physician I ever became acquainted with. One great advantage, he uses no medicines, but cures by a process which is perfectly natural. The time occupied in my case was thirteen days.

Personally appeared before me, D. O. Harra, and subscribed and sworn to the above certificate, on this fourteenth day of November, A. D. 1860.

SAN FRANCISCO, August 3d, 1861.

To the Directors and Resident Physician of the Electropathic Institute.

SIRS:—You requested of me a certificate of the cure you performed in my case. Below I append it:

This is to certify that I was troubled with a swelling which commenced in my ankles and gradually extended upward until it effected my whole body. I sought the best medical aid in New York and Boston, and they all pronounced it dropsy. Hoping to retrieve my health I visited California in February last. I consulted the Resident Physician at the Electropathic Institute; and now, after five months of treatment, and waiting to see the effects, I am pronounced well by competent judges. It did not take but three months of treatment to cure me, but I waited to see that it did not return. I feel perfectly assured from what I saw while under treatment, that Electricity, as applied at this Institute, will cure any disease to which the human family is liable.

Now, gentlemen, you can make what use you please of this certificate. With my thanks to the Resident Physician for his kind attention, I subscribe myself,

Your thankful patient,
MRS. C. A. CARLTON.

Opinions of the Press.

The advantages of electricity as a remedial agent, are universally admitted by the medical and scientific world. It requires, however, experienced skill to apply this remedy efficiently, and this skill of application is possessed in an eminent degree by Dr. J. H. Josselyn, of the San Francisco Electropathic Institute. Particulars of his method of practice can be obtained by reference to his advertisement, in another column. The Doctor is well known to us as a scientific gentleman, and an ardent devotee to his profession. He is no pretender but has conferred incalculable benefit on those who were so fortunate as to seek relief at his hands. For those who desire speedy and permanent relief from the rheumatic pains so prevalent in this region, we can recommend no surer remedy than a visit to Dr. Josselyn, at his rooms in San Francisco, No. 645, Washington street.—*Placerville Republican.*

ARE YOU SICK?—We wish to say a word to those that are sick. We have in this city an institution known as the Electropathic Institute, situated at 645 Washington street. The establishment is under the care of Dr. J. H. Josselyn, a physician who has no superior in the city. He has been in charge of the Electropathic Institute for several years, and has been uniformly successful in his treatment of the numerous patients that have placed themselves under his charge. The electric treatment will cure many diseases that cannot be reached in any other mode. Dr. Josselyn gives his personal attention to all of his patients, and is always ready to give advice to those that may call upon him. His charges are very moderate; and we cannot do the sick a greater favor than to recommend them to call on him before placing themselves in charge of another.—*San Francisco Daily Journal.*

We call the attention of our readers to the advertisement of Dr. Josselyn's Electropathic Institute. Voluntarily and unsolicited we make the following statement, proving its great beneficial effects, particularly in Rheumatic cases.—Some months since we were on an editorial trip, visiting the mountains. The stage upset, and landed all the passengers, including the writer, below in the valley, where the Deer Creek overflowed by receiving the additional material extraneous to its usual contents. For some hours exposed in our wet clothes to night wind and weather, we soon felt the effects of the accident in the mountains—pains in the back, hips and legs; so much so that for weeks we could hardly walk. Treatments of all kinds were applied, but without avail, until our attention was called to the Electro Galvanic Baths and appliances of the above Institute. Thank God, after two weeks, we have been fully restored, and enjoy now the free use of our limbs and body, as fully as previous to our involuntary bath in Deer Creek.—DR. H. BIEN, ED.—*True Pacific Messenger.*

ELECTROPATHY.—Electropathy has long been classed among the most effective medical agents. It possesses great advantages over the system of theropeutics heretofore relied upon, as it reaches more certainly the seat of disease, especially in nervous rheumatic complaints. The Electropathic Institute, No. 645 Washington street, under the charge of its able Resident Physician, Dr. J. H. Josselyn, has attained a well merited celebrity for the many cures which have resulted from the skillful application of this invaluable remedy.—*Daily Morning Star.*

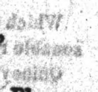

A GOOD INSTITUTION FOR THE SICK.—One of the very best places in the city for the care of the sick is at the Electropathic Institute, 645 Washington street. The Establishment is under the charge of Dr. J. H. Josselyn, a physician of great experience, and no one can do the sick a greater favor than to recommend them to give the Electropathic Institute a trial.—*Weekly Journal.*

BATTLE HYMN.

BY J. G. CLARK.

Oh! spirit of Washington, Warren and Wayne,
Oh! shades of the heroes and patriots slain,
Come down from your mountains of emerald and gold,
And smile on the banner ye cherished of old.
Descend in your glorified ranks to the strife,
Like legions sent forth from the armies of life,
Let us feel your deep presence as waves feel the breeze,
When white fleets like snow-flakes are drank by the seas.

As the red lightnings run on the black jagged cloud,
Ere the thunder-king speaks from his wind woven shroud,
So gleams the bright steel along valley and shore,
Ere the combat shall startle the land with its roar.
As the veil which conceals the clear starlight is riven,
When clouds strike together by waving wind driven,
So the blood of our race must be offered like rain,
Ere the Stars of our country are ransomed again.

Proud sons of the soil where the palmetto grows,
Once patriots and brothers, now traitors and foes,
Ye have turned from the path which your fore-fathers trod,
And stolen from man the best gifts of his God.
Ye have trampled the tendrils of love in the ground,
Ye have scoffed at the laws which the Nazarene found,
Till the great wheel of Justice seemed blocked for a time,
And the eyes of humanity blinded with crime.

The hounds of oppression were howling the knell
Of martyrs and prophets, at gibbet and cell,
While Mercy despaired of her blossoming years,
When her harp string no more shall be rusted with tears.
But God never ceases to strike for the right,
And the ring of His anvil comes down through the night,
Though the world was asleep, and the nations seemed dead,
And Truth into bondage, by error was led.

Will the banners of morn at your bidding be furled,
When the day-king arises to quicken the world?
Can ye cool the fierce fires of his heat-giving breast?
Or turn him aside from his goal in the west?
Ah! sands of the plains, where the orange tree blooms,
Ye may come to our pine-covered mountains for tombs,
But the light ye would smother was kindled by one,
Who gave to the universe, planet and sun.

Go strangle the throat of Niagara's wrath,
Till he utters no sound in his torrent-cut path;
Go bind his green sinews of rock-wearing waves,
Till he begs at your feet like your own fettered slave.
Go, cover his pulses with sods of the ground,
Till he hides from your sight like a hare from the hound,
Then swarm to our borders and silence the notes,
That thunder of freedom from millions of throats.

Come on with your chattels all won from the soil,
Where men receive scourging in payment for toil,
Come robbers, come traitors, we welcome you all,
As the leaves of the the forest are welcomed by Fall.
The birthright of manhood awaits for your slaves,
But prisons and halters are waiting for knaves,
And the blades of our mudsills are longing to rust
With their blood who would bury our Stars in the dust.

They die unlamented by people and laws,
Whose lives are but shadows on Liberty's cause,
They slumber unblessed by fraternity's star,
Who have blocked up the track of humanity's car.
Regarded, when dead, by the wise and the good,
As the shepherds regard the dead wolf in the wood,
And only unhated when time shall efface
The memory of wrongs from the souls of our race.

The streams may relate how they mingled our gore,
And the myrtle entwine on their borders once more,
The song birds of peace may return to our glades,
And children join hands where their fathers joined blades.
Columbia may rise from her trial of fire,
More pure than she came from the hand of her sire,
But Freedom will lift the cold hand of her scorn,
When history tells where her traitors were born.

MAKE ROOM FOR THE FLORENCE!!

IT MAKES FOUR DISTINCT STITCHES, FEEDS THE WORK, EITHER WAY, SEWS THIN AND HEAVY GOODS WITHOUT CHANGE OF TENSION, WILL GATHER AND SEW ON AT THE SAME TIME.

IT MAKES A STITCH ALIKE ON BOTH SIDES OF THE FABRIC, HAS NO SPRINGS TO GET OUT OF ORDER, AND IS THE MOST RAPID SEWER IN THE WORLD. EVERY MACHINE WARRANED

We, the undersigned, have each purchased a FLORENCE SEWING MACHINE and have them now in use. We have thoroughly tested them on work of all grades—heavy, medium and light—and our opinion is that the Florence is durable, will not easily get out of order, is strong and simple in construction, and its use is easily learned by the most inexperienced.

It will do a greater range of work, with less trouble and change, and we consider it altogether better than any other Family Sewing Machine we have ever seen.

NEW YORK, May 1, 1861.

Mr. Wm. T. Cutter, Jr., Louisville, Ky.—Dear Sir: The great difficulty in procuring brandy sufficiently pure for medicinal purposes, has induced many of the physicians of this vicinity to adopt Bourbon Whiskey as a substitute, both in the hospital and private practice, and since the latter has come into such general use, we have reason to believe that a great deal now sold is of very inferior quality of

Presuming that your residence in the vincinty of the manufacture of Whisky in Kentucky, as well as your skill as a chemist, will enable you to select a reliable article, and having full confidence in your integrity, we are led to inquire whether you will not aid us in having the market supplied, through an agency, with the best quality of

WATT'S NERVOUS ANTIDOTE!!
A Certificate of Cure that Every One Should Read!!
SAN FRANCISCO, AUGUST 1st, 1864.
MESSRS. CRANE & BRIGHAM, DRUGGISTS—Cor. of Clay and Front Streets:
GENTLEMEN:—I notice an advertisement in the newspapers, that you are the Agents for WATTS' NERVOUS ANTIDOTE, and being satisfied that there are many persons in this State that are suffering with RHEUMATISM, that would gladly avail themselves of any preparation that would cure them, I thought it a duty I owed to suffering humanity, to make a statement of my case.
Some eight years since, while working upon a Rail Road, I strained my back severely, in attempting to lift a car wheel, being in a profuse perspiration at the time, and being compelled to go home without a coat, I took a severe cold, which eventually brought on the Rheumatism which kept me confined to the house a large portion of the time for several years. I consulted most of the leading physicians in Sacramento, and in this city, visited the Warm Springs at Alameda, tried the various compounds that are advertised as cures for this terrible disease, but all to no purpose. My complaint, instead of getting better, grew worse, my left leg became partially paralyzed, the pains in the back and chest became so intense, that I often wished myself dead. I could not sleep more than two hours of a night, my appetite failed me, and I grew emaciated day after day, until finally, I made up my mind that my troubles would soon be over. While wabbling down Clay Street one day, in 1862, I met a gentleman with whom I was formerly acquainted. He enquired the nature of my disease, and upon being informed he stated that he had several years before been similarly affected in Washington, and that he had cured himself by the use of WATT'S NERVOUS ANTIDOTE. This was the first time that I had heard of the medicine, and I determined to give it a trial. I procured a half dozen bottles, and before I had used two of them I could sleep all night, my appetite had improved and I felt considerable easier. Encouraged by the apparent improvement, I determined to persevere in the use of it, as it was my only hope."—I did so, and used it at intervals for two years. I found its effect slow but very sure, until now, I am entirely cured. I HAVE NOT HAD AN ATTACK OF RHEUMATISM FOR SIX MONTHS. My back is as strong and as well as ever, my leg is as good as new, my appetite altogether too good for my pocket, and I am physically as strong as I was ten years ago, and feel myself able to whip any man of my size and age in the city.
Hoping that this plain statement of my sufferings and ultimate cure will fall under the eye of some one similarly afflicted that he may be benefitted by my experience.
I am, Gentleman, Your most obd't.
NOTE.—The gentleman who wrote the above card does not wish his name to appear in print, but it will be given to those who wish to see him personally.
WATTS NERVOUS ANTIDOTE is for sale, Wholesale, by CRANE & BRIGHAM, Cor. of Clay and Front Streets, San Francisco, and by respectable Druggists everywhere. 43-3m

WHY WILL YOU BE SICK.
IT IS STRANGE THAT SO MANY PERSONS will suffer for years with diseases when they can be so readily cured.
DR. A. BALL,
Has been established in San Francisco for ten years and during that period has not failed to effect a cure in a single case that he has undertaken.
DOCTOR BALL after a study of forty years has succeeded in compounding a medicine of
PURELY VEGETABLE PREPARATION,
that will cure the worst cases of *Gonorhœa, Gleet, Strictures, Syphilis, Impotency, Skin Diseases,* and all complains arising from immoral practices, in less time than by any other process known, *without injury to the system.*
DR. BALL'S LADIES' RELIEF FOR THE radical cure of weakness and irregularities to which so many ladies of the Pacific Coast are subject, owing principally to the peculiarities of the climate, is the best preparation yet discovered by the medical faculty, as thousands who have used it are prepared to testify.
DR. BALL IS NO QUACK. He is a regular educated Physician of forty years standing and has a diploma, which he will be pleased to exhibit to all those who may wish to examine it.
Persons living at a distance, by sending a description of their complaint, can have this medicine put up in a package and forwarded by mail or express, in such a manner as not only to insure safety in transitu, but so that no one would suspect what are the contents.
References will be sent by mail to those who wish to enquire as to the Doctor's ability before placing themselves in his charge.
